

CVRC Business Meeting
7/24/12

1. We had further discussion of the motion that was previously passed... to change the repeater timer to 8 minutes.
2. Although it was originally unclear to many, we have double checked and the timer is currently set for three minutes.
3. N1JHJ stated that at the next General Meeting, Aug. 14th, he intends to make a motion to reconsider the previously passed motion to change the timer to 8 minutes. Perhaps a new vote would not change anything and that would be O.K., but at the next Aug. meeting it is hoped that Lindsay Collins and Pete Stohrer could be present for the discussion.
4. It was noted that at this point Peter has stated that “keeping the timing as is, encourages ARES members to be brief and to convey their messages quickly and efficiently”. He therefore encourages the club to leave the timer setting as is.
5. It was also noted that those interested in rag chewing could simply break, wait for the beep and continue with other messages of a non emergency nature. No problem.
6. We also discussed the Military Vehicle Rally. Don, N1ZIH will set up the tent around 2:00 pm Friday, if the following holds true. He will wait until Thursday, 7/24/12 for volunteers to assist. He will not do the setup if there are no further volunteers.
7. Dale, AF1T and Mickie, W1MKY, have indicated their intention to stop by early Saturday morning to help while they can.
8. If you wish to assist, please call Don at 603-651-8000.
9. Noted that as of today, Fred has approximately 24 people signed up for the picnic. More are expected at the last minute.
10. Motion was made and passed to adjourn the meeting at 8:52 pm.

Respectfully submitted,

Steve Jones, N1JHJ
