

CONTOOCOOK VALLEY RADIO CLUB

Executive Committee Meeting – 8/26/21

1. There were 8 people present and no one joined us on Zoom.
2. The minutes of the last meeting were read and accepted.
3. Mickie gave her Treasurer's Report. Noted that the balance compared to the previous meeting remained the same.
4. The Treasurer's report was accepted, as well.
5. Mr. Leshner volunteered to run the zoom portion of the meeting, for the future.
6. Dale addressed some positive actions that Mr. Kemmerer talked about previously, that the Nashua Radio club was involved with.
7. Using Bob Bowes as an example, he indicated some things he'd like to see our club try, based on some things he has seen other successful clubs try.
8. Bob's interests lie in such things as amateur operators working in emergency management, Field Day and other things. He also feels its essential to get new hams "On THE AIR." He suggests that the club go out and buy some Baoefeng HT's and give them to the new hams with them agreeing, (perhaps in writing) to participate in such things as the 146.94 net which is on the air every night at 8:30 pm. Also to make some contacts on simplex on 146.52, or .55.
9. It was noted that our President should re-establish contact with John Gotthardt regarding his upcoming presentation, so as to firm up the date and time.
10. The meeting closed at 7:59 pm.

Respectfully Submitted,

Steve Jones, CVRC Secretary N1JHJ
